DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 19-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Jokinen (5,570,369).

As to claim 19, Jokinen discloses a mobile wireless communication device capable of receiving an incoming message transmitted in a series of portions over successive intervals, comprising a receiver (see the receiving path in figure 1); a controller 19 coupled to the receiver, the controller 19 configured to cause the receiver to receive portions of the incoming message in at least two the successive intervals without receiving a portion of the incoming message in a first of the successive intervals (see “receiving only 2 of the 4 time slots” at column 6 lines 28-31” and “the second and third time slot portions of four time slot messages” at column 6 lines 54-57); the controller configured to decode the portions of the incoming message received (see the decoder 15 in figure 2).

As to claim 20, Jokinen discloses the claimed limitation (see column 6 lines 11-13 which discloses receiving a third time slot; see also “receiving only 2 of the 4 time slots” at column 6 lines 28-31”, and “the second and third time slot portions of four time slot messages” at column 6 lines 54-57).

As to claim 21, Jokinen discloses the claimed limitation (see column 6 lines 24-27 which discloses receiving a fourth time slot; see also “receiving only 2 of the 4 time slots” at column 6 lines 28-31”).

As to claims 22-23, see column 6 lines 3-27.

Allowable Subject Matter

3. Claims 1, 3-18 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 1, 3-23 have been considered but are moot in view of the new ground(s) of rejection.

Rejection to claims 19-23

Regarding claim 19, applicant argues that Jokinen fails to disclose receiving portions of the incoming message in at least two successive intervals without receiving a portion of the incoming message in a first of the successive intervals. The examiner, however, disagrees. Jokinen discloses that “the message may have been reconstructed after receiving only 2 of the 4 timeslots” (see column 6 lines 27-31). Therefore, if the only 2 time slots are the second and third time slots, Jokinen discloses the claimed limitations.

Rejection to claims 1, 3-18

The examiner finds applicant's argument persuasive. Accordingly, the rejection to claims 1, 3-18 are now withdrawn.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
